The background of the top half of the slide is a close-up photograph of a white piece of paper. On the paper, the word "Testimonial" is written in a large, elegant, black cursive script. To the left of the paper, a pair of gold-rimmed glasses is partially visible. To the right, a hand is holding a black fountain pen with gold accents, poised as if about to write.

TESTIMONIALS

When we choose our partners, it is not necessarily based on their price offer, most important for us is the level of service, and once you do things with your heart and not only with your head it makes the whole difference. The program just finished and we have already received several text messages that this was the best incentive group ever. Eli texted me that it was not just the best incentive ever for his company, in his opinion it was the best Incentive group that was made in the Israeli market for years. – Tzafrir Ben-Avinoam- COO Tamla Travel
